

**SUNSET
FENCING**

CAPABILITY STATEMENT

QUALITY FENCING FOR EVERY APPLICATION

Road & Rail Infrastructure

Our fencing solutions include pedestrian fencing, guard rails, acoustic noise reduction and sound walls, crash barrier fencing, rock fall, predator-proof & fauna fencing.

OUR COVERAGE

We provide a complete range of fencing services including consultation, design, manufacture, supply, installation and maintenance.

Sunset Fencing has built strong relationships with builders and developers on industrial and commercial projects across Australia. Our team covers a wide range of sectors.

Utilities & Energy

Substations, Irrigation Channels, Solar & Wind Farms are some of the projects successfully manufactured, supplied and installed by the team at Sunset Fencing.

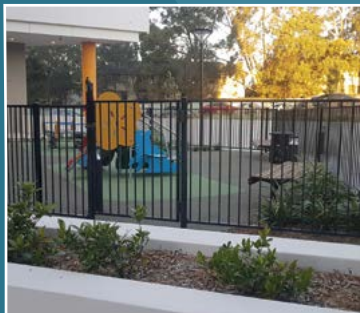

High Security Fencing

With teams qualified specifically in high security fencing, we have completed many successful projects for Defence Sites, Prisons & Detention Centres.

Mining & Resources

Sunset Fencing's qualified teams have supplied and installed fencing to remote mine sites. Our large fleet of mine site compliant vehicles & equipment enable us to deliver the complete fencing solution.

Education & Health

We supply and construct boundary fencing, gates and enclosures that conform to strict OH&S requirements for schools, sporting venues, childcare, retirement villages and car parks.

COMPANY OVERVIEW

Sunset Fencing is a family owned security fencing company, with over 30 years' experience in the fencing industry. We offer an extensive range of fencing solutions to clients in all states of Australia, including large scale and remote projects.

Sunset Fencing is recognised across Australia as a leader for its efficiency in the design, supply, and installation of security fences and gates. Our team deliver premium quality fencing products in a range of sectors including defence, commercial, government, energy, road, rail, and mining, among others.

Our policy of continued expansion and investment in innovative technology and state of the art equipment enables us

to offer our clients quality products and services at a competitive price. We focus on delivering fencing projects safely, on time, and above and beyond our clients' expectations.

At Sunset Fencing, we understand that each client's needs are unique so we provide customised solutions to meet their specifications. With a team of over 40 highly trained and experienced personnel, Sunset Fencing brings quality craftsmanship, professionalism, experience, and project management skills that enable us to provide a wide range of fencing and gate solutions

Our personnel are trained to strictly adhere to all environmental, industrial, quality and safety standards.

SUNSET SOLUTIONS

DESIGN & CONSTRUCT

Sunset Fencing offers unparalleled security fencing services from design to engineering and construction. We design and construct a wide range of custom fences and gates to suit our client's specifications. Our strong capability and extensive experience enable us to successfully deliver fully engineered and structurally designed projects regardless of project size.

RENEWABLE DEVELOPMENT

With the increased use of renewable energy, Sunset Fencing understands the importance of adequately securing wind and solar farms. We are specialists in supplying and installing custom fencing and gates for solar and wind farms. The team at Sunset Fencing have installed fencing and gates for more than twenty solar and wind farm projects across Australia.

MAXIMUM SECURITY EXPERTISE

Sunset Fencing takes pride in installing integrated high-tech and high-security fencing. We have supplied and installed security fencing and gates for defence centres, prisons, detention centres, and commercial premises. Drawing from our large stock of fencing materials and innovative solutions, we can meet the requirements of any high security premises or site.

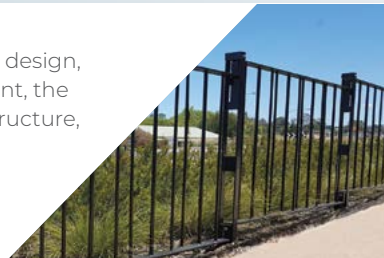

REMOTE LOCATIONS SPECIALIST

As a quality oriented company, Sunset Fencing offers far-reaching fencing services to remote areas and mine sites. We are able to successfully deliver fencing projects in remote areas and undertake logistical coordination of the projects. We are equipped with a skilled team of installers and the capacity to transport materials to remote locations.

WIDE RANGE OF SOLUTIONS

We offer an extensive range of fencing services from design, fabrication, supply and installation for the government, the department of defence, road and rail, energy, infrastructure, mining, residential, and commercial sectors. Our solutions include rock fall fencing, traffic barriers, predator-proof fencing, retaining walls, and fauna fencing.

QUALIFIED, DEPENDABLE TEAM

Our employees are our most important asset hence we ensure we deploy the best professionals. With a team of more than 40 personnel consisting of qualified engineers, project managers, fabricators, and installers, we are focused on providing quality and reliable services.

CASE STUDY 1: Irrigation Channel System
